5th JUNE 2021 – WORLD ENVIRONMENT DAY

5th June 2021

Dear Environment enthusiast,

On this day, when the whole world reassures their commitments to ecology and nature conservation goals while celebrating “**World Environment Day**”, we, Global Urban Canopy would like to offer an irresistible partnership as detailed below.

GLOBAL URBAN CANOPY

Global Urban Canopy has been established with the sole commitment to contribute towards real-world implementation of environment friendly projects. Over the last 3 years we have worked in collaboration with many corporations and government bodies to increase the canopy cover by designing and creating botanical gardens, urban forests and supporting systems. We are proud to announce the below project in line with our ambitious goal of planting 1 million trees by 2025.

PROJECT

As part of our social responsibility, we intend to work closely with the educational institutions aiming to kindle an active interest in the next generation towards nature conservation in a practical way. GLOBAL URBAN CANOPY offers to create a thematic **Arboretum** in selected schools, who share the lofty ideals of nature conservation and are ready to cooperate with us. Please note this is NOT a landscape beautification scheme.

GRATUITOUS

Yes, we are pleased to inform that cost of the whole project will be borne by GLOBAL URBAN CANOPY and its project partner, KAMALAMBHA TRUST, with an intention to instill a momentum in the conservation projects which is expected to snowball and evolve into a groundbreaking campaign.

By registering to the Project, we hereby confirm that:

- ☒ We look forward to partnering with GLOBAL URBAN CANOPY in creating an Arboretum as we would be able to demonstrate our commitment to environment protection goals.
- ☒ We understand that cost of the seedlings and labour cost for planting will be borne by GLOBAL URBAN CANOPY. However, we will arrange for the irrigation facilities, and to secure the area from trespassing in order to avoid damage of plants/trees, at our cost.
- ☒ We undertake to keep a designated area of _____ (cents/sq.m) for the project, and to maintain the Arboretum for at least 15 years.
- ☒ We find this as a great opportunity for our students to get involved with nature conservation activities, and we agree to assign a group of “Guardian angels” each year for taking care of the planted trees, and that their enthusiastic involvement would be duly recognized.
